The Asper Prize - HUJI Rising Startup of the Year Competition 2023

About the Competition

The Asper Prize: the Hebrew University Rising Startup of the Year competition aims to promote incredible ventures that are part of the Hebrew University community that utilize innovative technologies to create positive impact on a global scale. We use the United Nation Sustainable Development Goals (SDG's) as a compass to define the sectors that need more focus.

The annual competition, honouring the late Israel and Babs Asper, invites early-stage startups to present their ventures in front of leading global and Israeli investors. The judging committee will select the 5 finalists to present in a live pitching event at the Hebrew University's Board of Governors, where the winner will be chosen. The winning startup will receive the Asper Prize award that includes a 100,000 ILS prize.
